

MESSAGE FROM THE PRESIDENT

**ASHNR's
New Identity**

*Lawrence E. Ginsberg, MD
President*

With this newsletter contribution, the sun sets on my brief reign as president of the ASHNR. Next month, after only 11 months or so in office, I will turn the office over to the very capable hands of Dr. Suresh Mukherji. It has been a privilege and pleasure to lead this fine society during trouble-free times. Those attending this year's Annual Meeting will learn that our society is strong-membership is at or near an all-time high, and we are quite strong financially. The society has very competent leadership, and an enthusiastic group of up-and-coming future leaders, ensuring that our officers are and will remain dedicated to our core principals of providing the finest in research and education in the field of head and neck imaging.

You should recently have received an email introducing our society's new logo, created by Beth Singer, Design, LLC, of Arlington, Virginia. It is also shown at the top of this newsletter. This logo was the product of considerable discussion and deliberation, and a lengthy design process. I am very grateful to Beth Singer and her partner/husband, Howard Smith, and to the members of the logo committee who lent their time to the effort. They are Drs. Jane Weissman, Phillip Chapman, Rick Wiggins, and Peter Som. We hope you like it.

My presidency began at the 44th Annual Meeting in Houston, Texas, and hopefully any of you who attended found it to be a stimulating blend of radiologic and clinical lectures, and scientific papers and exhibits. Many clinicians from MD Anderson

Cancer Center lent their expertise and time to complement the usual fine presentations by leaders in the field of head and neck radiology. The focus of the meeting was head and neck cancer and neoplasia. The social program was highlighted by an evening at Minute Maid Park, home of the Houston Astros. A good time was had by all of the nearly 400 individuals who attended from around the US and numerous foreign lands.

In just a few weeks, September 7-11, the ASHNR will hold its 45th Annual Meeting at the beautiful Hotel del Coronado on Coronado Island near San Diego, California. The Program Chair and President-Elect, Dr. Suresh Mukherji, has assembled a terrific program aimed at radiologists, ENT physicians, and allied healthcare professional, with an interest in imaging of diseases of the head and neck. If you haven't attended our meeting in a while, you owe it to yourself to reinvigorate your knowledge by learning from the true experts in the field. The natural beauty of Coronado Island and grandeur of this old-world hotel are not to be missed. Saturday night's beach party should be a social highlight. Finally, the "del" is only ~2miles from the Naval Amphibious Base Coronado, home of, among other things, The Navy SEALs. Though Dr. Mukherji's program is not nearly as rigorous as SEAL training, and this will be no "hell week," nevertheless there will be ample opportunity to exert and flex your mind. We hope to see you there.

*ASHNR Active and Affiliate members
are invited to attend the ...*

2011 ASHNR Annual Business Meeting

Saturday, September 10, 2011

5:30 – 6:00 p.m.

Ballroom, Hotel del Coronado

San Diego, California

Watch your mail for more information on this meeting.

FROM THE PRESIDENT-ELECT

45th Annual Meeting Update

Suresh K. Mukherji, M.D.
ASHNR President-Elect

Preparations are coming along nicely for the ASHNR 45th Annual Meeting that will be held at the Hotel Del Coronado from September 7-11, 2011. We already have over 400 registrants and have over 150 accepted scientific abstracts. This ASHNR will also be the first to offer SAMs. The meeting promises to be a superb educational and scientific experience.

I believe what distinguishes the ASHNR Annual Meeting from other meetings that provide educational content in head & neck imaging is the unique combination of size and content. The meeting faculty is comprised of a virtual “Who’s Who” in head & neck radiology. The size and structure of the meeting with its numerous breaks and social events permits the attendees to greet old friends and meet and really get to know the meeting faculty in a more intimate setting than is possible at other larger meetings. I still remember being in “awe” at my first ASHNR meeting from seeing all the luminaries of head & neck radiology in one venue and having enough time and access to have meaningful conversations with individuals whose books I had read or whose lectures I had attended. This was one of main reasons I chose a career in head & neck radiology and I hope others will share my enthusiasm and passion regarding the organization and our Annual Meeting.

However, we do not want to forget the most important aspect of the meeting...and that is to have fun! We did not forget where the meeting is located when we planned the program. We have left ample time to take advantage of the wonderful venue that is the Hotel Del Coronado. Located at the southwestern tip of Coronado Island, the property has unsurpassed views of the Pacific Ocean and Point Loma. The Opening Reception (“Samosas at Sunset”) will be oceanside to view the spectacular sunset over Point Loma. This will make for a great opportunity to catch up with friends and meet the ASHNR faculty in a beautiful and informal setting. The Gala Reception will be a bonafide beach party with a California Beach Band, bonfire and lots of s’mores...and... a few other surprises!!!! This meeting will also continue the tradition of having Friday afternoon free for you and your family to explore downtown Coronado or take a short ride to downtown San Diego or neighboring La Jolla.

There is one other personal aspect of my emphasizing the fun nature of this meeting and that is because the ASHNR 45th Annual Meeting happens to coincide with my 50th birthday! I could not imagine a better “Birthday Party”!! Four hundred of my closet friends and colleagues gathered at a world-class destination to discuss such a fascinating and important topic. This meeting will be very unique and special in many ways. So, I hope to see you in San Diego in a few weeks!!

Don't Let This Be Your Last Newsletter

Don't let this be your last issue of *ASHNR News*. If you have not yet done so, don't forget to renew your Society membership for 2011. If you need another copy of your dues renewal invoice or wish to renew by phone using a credit card, call or email Patricia Galle-Bingham at 630-574-0220, extension 222 or pat@asnr.org.

ASNR 2011

Outstanding Presentation Awards

By Barton F. Branstetter, IV, M.D.
ASNR Education Committee Chair

ASNR is pleased to announce the winners of the *Outstanding Presentation Awards*. The overall quality of the paper and poster presentations at the Seattle meeting was excellent, and the winners should be commended for their outstanding work. A \$1,000 award will be given to the primary author of each winning presentation.

Seven awards were presented in Six categories: in *Adult Brain/General Neuroradiology* (two awards, one awarded by the ASNR, and another awarded by The Foundation of the ASNR), *Functional Neuroradiology, Head and Neck, Interventional* (The Michael Brothers Memorial Award), *Pediatrics* (The Derek Harwood-Nash Award), and *Spine*. Both awards in *Adult Brain/General Neuroradiology* were selected by a panel of ASNR members under the direction of the Education Committee. The five subspecialty awards were judged by panels selected from each of the specialty societies, including ASFNR, ASHNR, ASPNR, ASSR, and SNIS. We would like to thank all of the judges for their tremendous effort in evaluating the presentations. Congratulations to the winners!

Head and Neck Radiology **Peripheral Nerve Tractography in Brachial Plexus Lesions**

Kasprian, G.J. • Breitenscher J. • Mallouhi, A. • Czerny, C. • Prayer, D.
(University of Vienna, Vienna, AUSTRIA)

General Neuroradiology on behalf of the ASNR **Comparison of Arterial Spin Labeling and Bolus Perfusion-Weighted Imaging for Detecting Mismatch in Acute Stroke**

Elmogy, I.S.¹ • Zaharchuk, G.² • Fischbein, N.J.² • Albers, G.W.
2(1Mansoura Advanced Radiology Center, Mansoura, EGYPT, 2Stanford University, Stanford, CA)

General Neuroradiology on behalf of **The Foundation of the ASNR** **Diffusion Kurtosis Imaging of Normal Pressure Hydrocephalus**

Pawar, R.V.¹ • Kong, S.E.² • Jenson, J.H.³ • Golomb, J.B.¹ • Babb, J.S.¹ • George, A.E.¹

(1New York University Langone Medical Center, New York, NY, 2New York Medical College, Valhalla, NY, 3New York University School of Medicine, New York, NY)

Functional Neuroradiology **Resting Brain for Neurosurgical Planning**

Stufflebeam, S.M.¹ • Liu, H.¹ • Buckner, R.¹ • Tanaka, N.¹ • Grant, P.²

(1 Massachusetts General Hospital Martinos Center, Charlestown, MA, 2 Children's Hospital Boston, Charlestown, MA)

Interventional Neuroradiology **(The Michael Brothers Memorial Award)** **Intra-Arterial Chemotherapy (Chemosurgery) in the Treatment of Retinoblastoma: 4-Year Experience**

Gobin, Y.¹ • Abramson, D.² • Marr, B.² • Brodie, S.³ • Dunkel, I.²

(1Weill Cornell Medical College, New York, NY, 2 Memorial Sloan-Kettering Cancer Center, New York, NY, 3Mount Sinai College of Medicine, New York, NY)

Pediatric Neuroradiology (The Derek Harwood-Nash Award) **Resting-State Functional MR Imaging of the Fetal Brain**

Schopf, V. • Kasprian, G. • Mitter, C. • Brugger, P.C. • Prayer, D.
(Medical University of Vienna, Vienna, AUSTRIA)

Spine **Application of Diffusion Tensor Imaging as a Surrogate for Neurologic Deficit of Spinal Cord Injury**

Zohrabian, V.¹ • Zussman, B.¹ • Frangos, A.¹ • Matthews, J.¹ • Lackey, J.¹ • Dresner, M.A.² • Lai, S.¹ • Marino, R.¹ • Gorniak, R.¹ • Flanders, A.E.¹

WELCOME NEW SOCIETY MEMBERS!

Following are eighty-one (81) new members who joined the Society since the October 2010 Annual Business Meeting in Houston and as of August 9, 2011:

Active (36)

- Avanti Ambekar, MD**
Calif. Advanced Imaging Medical Associates, Novato, CA
- Kristin Lloyd Bagnon, MD**
Emory University, Atlanta, GA
- Nathan Berkley, MD**
Maury Regional Medical Center, Columbia, Tennessee
- Ari Blitz, MD**
Johns Hopkins Hospital, Baltimore, MD
- Marguerite M. Care, MD**
Children's Hospital Medical Center, Cincinnati, OH
- Ashim F. Choudhri, MD**
University of Tennessee, Memphis, TN
- Steven M. Dorris, MD**
University of California, San Diego, San Diego, CA
- Barbara L. Eisenkraft, MD**
Winthrop University Hospital, Mineola, NY
- Nikdokht Farid, MD**
UC San Diego Medical Center, San Diego, CA
- Pawel P. Gruca, DO**
611 MRI/CT Imaging, State College, PA
- Nandita Guha-Thakurta, MD**
MD Anderson Cancer Center, Houston, TX
- Jason Handwerker, MD**
University of California Irvine Medical Center, Irvine, CA
- Raymond Y. Huang, MD**
Brigham and Women's Hospital, Boston, MA
- Jill V. Hunter, MD**
Texas Children's Hospital, Houston, TX
- Mohannad Ibrahim, MD**
University of Michigan Health Sciences, Ann Arbor, MI
- Eric V. Johnson, MD**
Catawba Radiological Associates, Inc., Hickory, NC
- Achilles G. Karagianis, DO**
Northwestern Univ., Feinberg School of Medicine, Chicago, IL
- Marcia Komlos, MD**
Cincinnati Children's Hospital Medical Center, Cincinnati, OH
- Vinadh A. Kumar, MD**
UT, MD Anderson Cancer Center, Houston, TX
- Michelle M. Lajaunie, MD**
Diversified Radiology of Colorado, Lakewood, CO
- F. Allan Midyett, MD**
Howard University Hospital, Washington, DC
- Karen K. Moeller, MD**
Kosair Children's Hospital, Louisville, KY

ASHNR 2011 Radiologist-in-Training Award

Once again, the ASHNR will sponsor the Radiologist-in-Training Award at the 45th Annual Meeting. The award was established in 1998 to promote interest and research in head and neck imaging from among residents and fellows in radiology.

The award recipient, chosen by the ASHNR Education Committee, will receive a \$1,000 honorarium and reimbursement of their meeting registration payment following the submission of their manuscript to the *American Journal of Neuroradiology (AJNR)*.

The submission of the manuscript does not guarantee publication; the *AJNR* has first rights of publication of the winning paper.

Past Award Recipients:

2010: Patrick Browaeys, M.D., University Hospital of Lausanne, Belgium

Evaluating Superior Semicircular Canal Dehiscence: Can MR FIESTA Imaging Replace High-Resolution CT of the Temporal Bone?

2009: Mr. John Childress III, Ann Arbor, MI

The Variability of the Radiation Dose Delivered During Neck CT: Do We Really Know the True Dose?

2008: Kevin (Ping-Sun) Chen, M.D., University of Wisconsin Hospital and Clinic, Madison, WI

Multipositional MR Imaging of the Extraocular Muscles for Evaluation of Strabismus

2007: Nila H. Alsheik, MD, University of Wisconsin Hospital and Clinic, Madison, WI

Maxillofacial Trauma Presenting to a Level 1 Trauma Center: Imaging Findings, Classification, and Complications in 1,000 Consecutive Patients

2006: Mai Russell, MD, Emory University Hospital- Dept. of Radiology, Atlanta, GA

Balancing Radiation Dose and Image Quality: Clinical Application of Volume CT of the Neck

2005: Aaron J. Zima, MD, University of Michigan Health System, Ann Arbor, MI

Can Pre-Treated CT Perfusion Predict Response of Advanced Squamous Cell Carcinoma of the Upper Aerodigestive Tract Treated With Induction Chemotherapy

2004: Lana M. Wilkerson, MD, University of Miami, Miami, FL

MRI of Hydroxyapatite Ocular Implants

2003: Ario Rezaei, MD, University of Michigan Health System, Ann Arbor, MI

CT Perfusion Studies of the Neck, ICA versus ECA as the Input Artery

2002: Chuong D. Bui, M.D., University of Michigan Health System, Ann Arbor, MI

Diagnostic Accuracy of FDG PET for Diagnosing Non Squamous Cancers of the Extracranial Head and Neck

2001: Ricardo M. Burgos, MD, Tripler Army Medical Center, Honolulu, HI

Pattern of Level V Adenopathy in Nasopharyngeal Carcinoma as an Aid to Diagnosis

2000: Heidi B. Eggesbo, MD, Aker Hospital, Oslo, Norway

CT Characterization Development Variations of the Paranasal Sinuses in Cystic Fibrosis

1999: Kerstin Slawek, MD, University of Pennsylvania Medical Center, Philadelphia, PA

Reinterpretation of Cross-Sectional Imaging in Patients with Head and Neck Cancer in the Setting of a Multidisciplinary Cancer Center

1998: Jeffrey A. Stone, MD, University of North Carolina at Chapel Hill, Chapel Hill, NC

Evaluation of CSF Leaks: High Resolution CT Compared to Contrast and Radionuclide Cisternography
