52nd Annual Meeting
American Society of
Head & Neck Radiology
Practical Head & Neck Imaging with a Dose of Southern Charm

September 26 - 30, 2018
The Westin Savannah Harbor Golf Resort & Spa
Savannah, GA

27.5 AMA PRA Category 1 Credit(s)™
Eight hours will be submitted for SAM qualification.

Call for Abstracts at www.ashnr.org • Deadline: May 10, 2018
From The President-Elect and Program Chair

Instead of a long-winded essay on why you should come to Savannah, and in the spirit of the non-traditional formats that will be highlighted at the 52nd Annual ASHNR Meeting, I offer you a Top 5 list.

Top 5 Reasons to Come to the 52nd Annual Meeting of the ASHNR in Savannah, Georgia

#5: The program contains several Top 5 sessions! Other non-traditional formats include short bites on difficult anatomy, and a staging workshop using the new AJCC 8th Edition. The “H&N Top 5: Practice Improvement Edition” will showcase our experts’ best advice for avoiding cognitive errors, improving our workplace and workflow, tweaking our H&N protocols, and avoiding radiologist burnout.

#4: Further cementing the meeting’s reputation as the premier event for H&N education, we will, for the first time, have a series of lectures designated as “Core Curriculum” covering the most basic topics in H&N imaging, such as sinuses, orbits, temporal bone, H&N glands and the H&N spaces. And, because more and more of us are doing it, there’s a session on ENT emergencies entitled “12 a.m. H&N Radiology.”

#3: Savannah is an AWESOME city, with 22 tree-lined squares in its gorgeous Historic District, lots of Spanish moss, fantastic restaurants, excellent museums, and atmospheric cemeteries (à la Midnight in the Garden of Good and Evil). It’s also easily accessible non-stop from ORD/LGA/DFW/IAH/ATL/BOS and others.

#2: Our meeting hotel is a full-on resort on an island in the Savannah River, but it’s minutes away from the heart of downtown by free ferry leaving every 15 minutes from the resort’s marina (or by Uber over the nearby bridge). There’s a riverside pool and hot tub, as well as tennis, spa and a world-class golf course, where we will host the first-ever ASHNR golf tournament!

And, finally, the #1 Reason to attend the 52nd Annual ASHNR Meeting in Savannah, Georgia: The chance to reconnect with old friends, and make lots of new ones, in the friendliest radiology society around!

See y’all in September in sunny Savannah!!

• Identify anatomy, developmental lesions and tumors of the anterior and central skull base.

• Describe the underlying surgical concerns that drive imaging of sinonasal and anterior skull base tumors.

• Review the anatomy and pathology of the cranial nerves.

• Optimize imaging protocols for technique-driven head and neck exams, including MRI of the TMJ, brachial plexus, temporal bone and cranial nerves as well as parathyroid 4DCT.

• Discuss the new AJCC 8th edition staging criteria for head and neck aerodigestive tract cancer sites.

• Apply imaging protocols to evaluate common abnormalities of the temporal bone, orbits, cervical lymph nodes and head and neck glands.
