57th Annual Meeting | American Society of

Head & Neck Radiology
Head and Neck Radiology with an International Flair

September 20 - 24, 2023
Hyatt Regency Grand Cypress
Orlando, Florida

30.75 AMA PRA Category 1 Credit(s)™

Call for Abstracts at
www.ashnr.org
Deadline: May 31, 2023
As we continue forward from our first post-pandemic in-person meeting in 2022, it is my great pleasure to welcome you all to the 57th Annual Meeting of the American Society of Head and Neck Radiology to be held from September 20-24, 2023 at the Hyatt Regency Grand Cypress in Orlando, Florida. As the slogan for the city of Orlando is “Unbelievably Real”, ASHNR 2023 will feature “Unbelievably Real Head and Neck Radiology” with over 100 speakers covering the scope of head and neck radiology from the content experts you love!

We are excited to present the first joint ASHNR – ESHNR (European Society of Head and Neck Radiology) program with renowned invited speakers and moderators covering topics in Head and Neck Cancer, Ultrasound techniques and Pediatrics that you will not want to miss! Learn from the experience of our colleagues “across the pond” and make new international connections and friends!

The program will also span a variety of topics starting with our Early Bird Session “Head and Neck Radiology is like a box of chocolates” – you never know what you’re going to get… Bring your most challenging and perplexing cases for our panel and audience to discuss. The following sessions will cover reviews of anatomy and pathology, infection, head and neck cancer, state-of-the-art techniques, pediatrics and emergencies. It is a jam-packed schedule, however, the lectures will be recorded and available to registered attendees for 6 months after the meeting.

We are honored to have Hugh D. Curtin M.D. FACR present a tribute to the late Peter M. Som M.D. FACP, FRSM. Please join us to honor and celebrate the life and legacy of one of the giants of head and neck radiology.

We will have a session with our senior ASHNR faculty presenting how they worked through cases that stumped them in the “Senior Mojo” session. Enjoy learning how recognized experts in the field work their way through difficult and challenging cases. Our senior ASHNR faculty will also present a series of discussions on leadership and career development, building your head and neck team, adding value, and teaching head and neck radiology in our Young Professional (YPS) session.

Recognizing the critical importance of research to the advancement of head and neck radiology, the program will have two Scientific Sessions. These sessions, the ASHNR Case of the Day exhibits, and the Educational Exhibits will provide additional educational opportunities and opportunities to connect with colleagues and trainees. Encourage your residents, fellows, medical students and faculty colleagues to submit abstracts or Electronic Exhibits!

Please sure to visit our sponsor booths and attend Breakfast and Learn sessions to learn about new technologies, and learning resources.

Connecting with one another is an important part of our ASHNR “family” and we will have plenty of social and networking opportunities with the opening reception and YPS receptions, the famous ASHNR game show, the ASHNR Gold Medal luncheon and the Gala.

The Hyatt Regency Grand Cypress is situated on 1,500 acres in the Lake Buena Vista area, close to Orlando’s many famous theme parks. The family-friendly resort offers an ideal location adjacent to Disney World – kids of all ages will love exploring area attractions. Hyatt Regency Grand Cypress offers a variety of recreational activities, including 45 holes of Jack Nicklaus Signature Design golf, racquet club, a 21-acre lake with water sports, and a 1/2-acre lagoon swimming pool with waterfalls, waterslides, and Camp Hyatt children’s programs.

I would like to extend my sincere thanks and appreciation to everyone who has made this meeting possible. I am grateful to the ASHNR Executive Committee, the ASHNR Program Committee and the ASHNR Educational Committee for their time and efforts to create this program. I am most appreciative of our speakers and moderators for their dedicated efforts to deliver an outstanding program. I would like to thank ESI and the ASNR staff for their support and guidance.

We are excited to welcome you to Orlando and we hope you enjoy ASHNR 2023!

Kristine M. Mosier, DMD, Ph.D.
President-Elect and Program Chair
American Society of Head & Neck Radiology
**Educational Objectives**

Attendees should, at the completion of this meeting, be able to:

- Recognize normal anatomy, developmental anomalies and various disease processes of the extracranial head and neck spaces, orbits and paranasal sinuses, anterior and central skull base, the temporal bone and cranial nerves.
- Learn about the imaging planning and post-operative appearances of surgical approaches for treatment of disease in the temporal bone, skull base and paranasal sinuses.
- Learn about infectious and inflammatory conditions of the head and neck.
- Recognize the imaging appearance of neoplasms involving the skull base, orbits, and jaws and learn about different approaches to biopsy in the head and neck.
- Be familiar with the current staging of head and neck cancer, imaging planning for robotic surgery in head and neck cancer, the optimal use of modalities for head and neck cancer, and learn the tips and tricks of post op neck imaging.
- Learn about pediatric neck masses, the role of CT versus MRI in pediatric head and neck imaging and review pediatric HN emergencies.
- Learn the pearls and pitfalls of imaging of the glands.
- Learn how senior members of the ASHNR approach complex and difficult cases.
- Discuss the state-of-the-art imaging of the head and neck with a focus on technological advancements and utility of advanced imaging techniques.
- Review advances in molecular imaging of the head and neck, molecular markers, imaging manifestation of genetic mutations, immunotherapy and treatment response, and neuroinvasiveness.
- Learn the key features of trauma imaging, post-traumatic reconstruction, post-operative complications, and neck and vascular emergencies.
- Learn strategies to recruit a more diverse trainee and faculty/attending representation in Head and Neck Radiology, how AI impacts equity and ethics and head and neck imaging, and how social media impacts global inclusivity in head and neck radiology.
- Learn non-interpretive skills including career development skills, building a head and neck team, learning to provide value, and strategies for teaching head and neck radiology.

No special educational preparation is required for this CME activity.

### EARLY BIRD SESSION:

**Head and Neck Radiology is like a box of chocolates...**

**Wednesday September 20, 2023 • 9:00 AM - 11:00 AM**

Please join us for this year’s Early Bird Session titled “Head and Neck Radiology is like a box of chocolates...” (2.0 AMA PRA Category 1 Credits (s)**). This 120-minute session will be an opportunity for registrants to present their most puzzling and perplexing cases for discussion with experts in the field of Head & Neck Radiology and with an audience of their peers. This is a great opportunity for everybody to learn how best to approach a challenging case, using knowledge of anatomy, imaging characteristics, and clinical medicine to help to narrow down the differential diagnosis. These cases will highlight the ways in which radiologists serve as essential consultants to our referring physicians and are meant to emphasize the added value of clinical-radiological correlation in our lives and the lives of our patients.

Please email your PowerPoint presentations with anonymized cases free of any patient identifiers to Kristine Mosier (kmosier@iupui.edu) by Monday, August 7, 2023, at 11:59 PM PDT. Only cases submitted in advance can be accepted. Please carefully select the number of images, as the author presentation of each case will be limited to 3 minutes.

### MEMBERS-IN-TRAINING & JUNIOR FACULTY RECEPTION

**Friday, September 22, 2023 • 3:30 PM - 4:30 PM**

Members-in-Training and Junior Faculty are invited to attend the Mentor Reception being held on Friday, September 22, 2023. This reception will provide the opportunity for trainees to connect with ASHNR faculty and develop relationships with our outstanding mentors.

**Pre-Registration is Required for Participation**

**Interested in being a Mentor?**
Contact Atef Zeinoddini, M.D. atatef.zeinoddini@gmail.com

### CALL FOR ABSTRACTS

CALL FOR ABSTRACTS for both Oral Scientific Papers and Electronic Educational Exhibits, including information, instructions and forms, is available on our website www.ashnr.org. Deadline for submissions is Wednesday, May 31, 2023 at 11:59 PM PDT.
**Meeting Program**

Friday, September 22, 2023 (Continued)

**Session 15:**

**Pediatric Imaging: Big Things in Little Spaces**
Moderators: Ram Vadhyanath, M.D., Susan Peizay, M.D.

**Session 16:**

**Go With the Flow**
Moderators: Bhagya Sannanjan, M.D., Gohar M. Fat Offers, MBBS, DNB, M.D.

Saturday, September 23, 2023

**Session 17:**

**DEI in Head and Neck Radiology**
Moderator: Maria Gisela Matheus, M.D.

Saturday, September 23, 2023 (Continued)

**Session 18:**

**Molecules and More**
Moderator: Michael Kwak, M.D., Ph.D.

Saturday, September 23, 2023 (Continued)

**Session 19:**

**It’s An Emergency!**
Moderators: Bhanurth Tamirongkoo, M.D., Mikel (Misa) Yutanis, M.D.

Sunday, September 24, 2023

**Session 20:**

**continuing education and professional development**

**Session 21:**

**Reframing the Future**
Moderator: Brian D. Graner, M.D., Kelly Dahlstrom, D.O.
Invited Faculty and Moderators
